Dear Louise,

Following your presentation to the BCC of your revised scheme we have now completed our comments, which have been sent to the case officer.

He has advised us that both our original comments (BCC779), attached for easy reference, and our comments on your revised scheme (BCC787) will be taken into account when he prepares his report for the planning committee.

We remain very concerned that, if approved, your application could lead to the closure of the present convenience store for an extended period until you were able to open the new store.

We urge you to bring forward an acceptable proposal for a temporary store and car park in central Brentford before the planning committee meet to determine your application or to make arrangements to keep the present store open until another supermarket is trading in the Brentford town centre.

Sincerely

Denis Browne  
Chairman, Planning Consultative Committee  
Bretford Community Council
