Chairman's Notes.

4. Commerce Road was given outline approval by SDC. The chair commended Isis on their extensive consultation and I think we should write to LBH encouraging them to guide developers to more pre-apps consultation.

5. Julia Warboys (LBH strategy) advised me that they are reviewing employment strategy and looking for buildings which could convert to schools (which could include this site) but not before the autumn. We might consider whether this application should await these reviews as well as looking at the designs. (Matthew is bringing the application drawings).

6. Maggie Urquhart is looking for support for her scheme to restore / use the listed building.
