8. AOB.
9. Following Meetings. 2 December...

**Chairmans Notes.**

4. At our last meeting we had a second presentation on this application which has now been lodged and which is due to go to IBAC on 11 November . In order to reach a carefully informed view on the application drawings and parts of the Design and Access Statement have been put on the BCC web site together with a draft letter (see BCC 522) for us to discuss. If agreed a final version of this letter will be circulated to IBAC members. You will note that the draft letter seeks to encourage the scheme after modifications have been made. Also see BCC 514 which was the letter we sent after the first presentation.
- 6 Mr Runeckles of British Waterways has told me a Water Space Strategy has been prepared relating to the Commerce Road application. We hope to discuss it if his papers are received in time.
