

Retired teachers *needed*

Are you a passionate qualified teacher?
Do you have a spare two hours per week?

TalentEd

Expert teachers for **bright** students

TalentEd offers high-ability Year 10 students a year-long programme of weekly small group (1:6) sessions.

Our qualified, retired teachers and inspirational role models improve GCSE grades and academic and career options. **Every young person should have the support, skills and aspirations to realise their potential.** Sadly, this is not the case for young people from low income areas in the UK and educational inequality is highest amongst the brightest students.

Working as a TalentEd tutor gives you the opportunity to:

- teach without the pressures of planning lessons, reports and data management.
- use your experience and qualifications to tackle educational inequality.
- build a relationship with the same six students over a year and support them to develop the skills and aspirations to realise their potential.
- earn between £30–£40 for a two hour session.

For a more detailed job description and to apply please go to www.talent-ed.uk or call 07813 935 708
