- 8. Cycle Routes consultation**
- 9. AOB**
- 10. Date of Next Meeting March 9.**

Chairman,s Notes:

3. Marilyn Smith (LBH) says that instead of sending papers relating to current applications to the library the Council intends to continue publishing the weekly list of applications. The full application would then be available on line. She is asking us for comments on the change. My own first view is that makes it a little more difficult for those affected who are not immediate neighbours. It will also be more difficult for us to read big plans or even A3 reports if we only have small screen and A4 printers.

4.1. Appears to include side dormer unbalancing terrace of 4.

4.2 See letter BCC 438 attached for comment/ratification.

4.3. I am trying to contact Arups.

5. It is understood that there may be a report back to IBAC Planning on Feb 19,

6.Report on Meeting Feb 9. + response to our letter BCC 437 attached.

7 Papers in library. Draft letter BCC 439 attached, for amendment/adoption.

8. Report by Chris Richards to follow for comment/adoption.
