Our ref: Local List Review
Date: 23rd October 2017

Dear Sir or Madam,

Hounslow Local List – Selection Criteria Consultation

The Council will be consulting on the updated selection criteria for our local list as part of our review of the local list. A local list is a list of buildings or sites which are recognized for their contributions to the local character and distinctiveness. Local lists, statutory listing and conservation areas contribute significantly to the character of an area and the quality of the built environment. Locally Listed buildings are separate from statutory listed buildings which are on the National Heritage List for England.

We are undertaking a review of our local list and as part of this process we will be updating the selection criteria by which potential buildings and sites are judged against. As part of the process we would now like your views on these selection criteria. The consultation period will run from 30th October – 4th December. You are invited to view and comment on the draft appraisals. The documents and consultation forms are available at:
<https://www.hounslow.gov.uk/consultations>.

Comments can be submitted via an online form, available through the council's consultation page above or by paper form. We encourage you to fill in the form electronically, as it is easier for us to collate the responses and more environmentally friendly, however if you require a paper response form, please contact us via the email address or phone number given above.

We welcome all comments on the draft version of these selection criteria and the criteria will be amended to reflect responses where necessary before adoption.

Please note that we are not accepting nominations for the local list at this stage. Nominations to the local list will be opened in the new year.

Yours sincerely,

Sophia Laird
Conservation Officer
