**Subject:** The Butts CA.

Hi Sean,

Thank you for visiting the Butts CA on Monday. In the evening the BCC did discuss our site walk and they asked me to record their appreciation of your work as our Conservation Officer.

While the meeting last Monday evening generally supported the suggestions which were made that morning I must report to you that one of our members, who is a resident on the eastern side of Church Walk, strongly criticised us for suggesting to you that consideration be given to extending the Butts CA to include that part of Church Walk without having first consulted every resident in that part of Church Walk to obtain their views.

The member concerned does not believe that it is within the remit of the BCC to make such a suggestion without prior consultation and the member is violently opposed to such an extension of the CA.

Please keep in touch. With best wishes

Denis
