

BRENTFORD TOWN CENTRE.

BCC 878 May 2019

There is a possibility that we can have a joint meeting with Brentford Voice, some local Councillors and with Ballymore to start off the process of sharing ideas as the Brentford Town Centre takes shape.

We have been asked to propose some questions before the meeting. It is hoped that BCC members will make some suggestions so we can cover all areas of concern.

Just to start this off here are some suggestions:

1. Can Ballymore give us the timetable for the project to show when detail designs for each section could be prepared and approved, and when building work would follow to completion.
2. What changes are proposed for phase 1, how will they be achieved.
3. Are Ballymore proposing to build out the whole of the scheme (with the exception of the section to be constructed by the Council)
4. Can we feel confident that the detail designs for later sections will be within the parameters set in the outline consent.
5. What arrangements can Ballymore make to provide temporary shops during the construction period.
6. Residents would appreciate regular meetings with Ballymore. Can we agree to set up a regular Forum.
7. (For Hounslow Council). We believe that this is the time for the Council to employ a Town Manager. Will members consider such an appointment.
